Backend & APIs	Laravel, PHP, Node.js, Express.js, MongoDB, REST APIs, API integration, web scraping, automation workflows
Shopify & eCommerce	Shopify themes, custom sections, product filtering, store optimization, CRO, SEO, speed improvements
Tools & Delivery	Git, GitHub, client communication, debugging, performance fixes, practical handover and documentation

EXPERIENCE

Full-Stack Developer - Komuna.dev (Scito)

Skopje, North Macedonia | May 2022 - Present

- Build responsive landing pages and client-facing sections using PHP Blade templates, HTML, CSS/SCSS and JavaScript.
- Develop full-stack features with Vue.js and Laravel, including API-connected components, forms, dashboards and data flows.
- Turn designs and requirements into clean, maintainable pages with attention to performance, responsiveness and usability.
- Collaborate with the team on feature delivery, bug fixes, Laravel integration points and production updates.

Freelance Full-Stack & Shopify Developer (Upwork)

Remote / North Macedonia | 2019 - Present

- Build and improve client websites, Shopify stores and custom web applications, covering frontend, backend integrations and launch support.
- Create React and Next.js interfaces with reusable components, responsive layouts and clean JavaScript logic.
- Customize Shopify themes, product pages, navigation, filters and checkout-adjacent flows to improve usability and conversion paths.
- Connect REST APIs, automation tools and AI/chatbot features when they solve a clear business problem.
- Handle client communication, requirements, estimates, fixes and handover in a freelance environment.

Frontend Developer Internship - Infinite Solutions

Skopje, North Macedonia | 3 months

- Worked on a Time Attendance Management & Access Control web application using MVC.NET, HTML, CSS, JavaScript and MySQL.

SELECTED PROJECTS
